

# Plastics

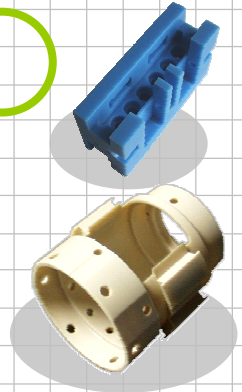

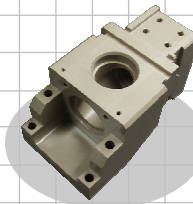

**We have many experiences  
of processing of plastics.**

(Our service of plastic processing is not provided for oversea companies.  
Though we introduce our plastic processing on this page so simply.)

## ■ Machining by Machining-center

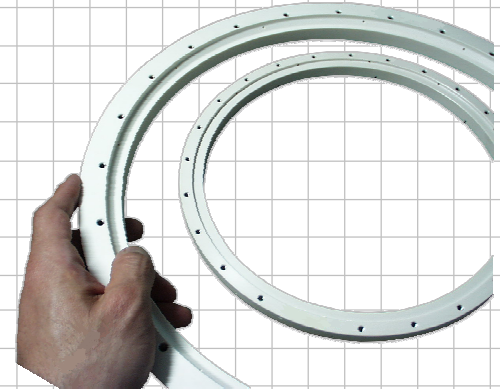

**3 Dimensional  
Complicated**

## ■ Machining by NC Lathe Machine

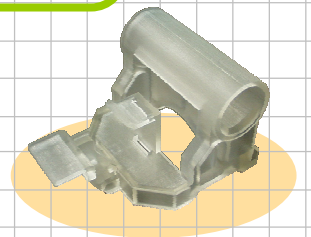

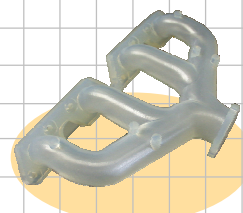

**For Semiconductors**

## ■ Rapid-prototyping

**For Medical and Prototype**

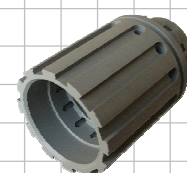

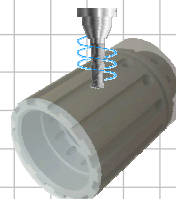

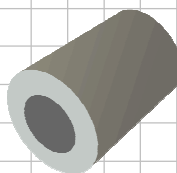

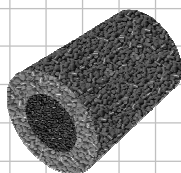

Rapid-prototyping realizes a product any kind of shapes which other processing can't make.

## ■ New development processing

**JUST IN MAKE**

**We make products from plastic pellets without expensive metal mold.**

The JUST IN MAKE method makes a new world of plastic manufacturing.
